HANSEN BUSH CHERRIES

EASY TO GROW—SURE TO PRODUCE

Good Flavor—Highly Productive—Hardy Everywhere

Hansen Bush Cherries are the result of over 30 years of untiring selection work by the great plant wizard, Prof. N. E. Hansen at South Dakota State College at Brookings.

Bushcherries Are Fruitful

He has developed what was formerly the rather small, little known western South Dakota Sand Cherry, to a fruit of large size, desirable taste, good habits, wonderful bearing and beautiful in flower, fruit and foliage. The fruit is good to eat from the bush and makes a wonderful jam. The juice makes fine jelly and a not to be forgotten cordial which won't keep long.

Though the fruit of this cherry much resembles a plum in size and shape, the plant itself grows in a bush like shape, branching and bearing from the ground up, usually bearing the year after planting. It always retains its dwarf stature which is of fine value for planting in the garden as it doesn't take up near the room of an ordinary plum tree and yet often bears more. The bushes should be planted 2 to 4 feet apart, in rows 4 to 6 feet apart about 12 to 25 or more to every home garden.

In landscape planting a few of the bush cherries are very desirable as they are dwarf and bushy and so a great aid in foundation covering planting and work. While the foliage itself, a beautiful silvery green, turning a rich red and gold in fall, adds a very desirable color touch to landscape planting. The profuse masses of white flowers in early spring, completely covering the bushes are a glorious sight. The fruit later is ornamental as well as useful.

Because of their dwarf bushy habit these Hansen Bush Cherries make a splendid ornamental low hedge for the front lawn as well as garden use.

Masses of Fruit

Bushcherries Are Ornamental

Plant These Hansen Bush Cherries Because:

- 1—They are easy to grow and perfectly hardy everywhere.
- 2—Are good to eat, and make delicious preserves.
- 3—Bear early, heavy, and annually.
- 4—Are dwarf growing and bushy.
- 5—Are excellent for hedges or ornamental shrubs.

FLOWERING BULBS AND PERENNIALS

Siberian Lavatera

A Beautiful Everblooming Perennial Siberian Lavatera was brought by Prof. N. E. Hansen from Siberia, and is absolutely hardy anywhere plants will grow.

The flowers are large, up to three inches across, single, and a pretty delicate shell-pink. They are borne in clusters on a long spike, blooming out gradually till the tip buds open. New buds form continually as the flowers fade to creamy white and fall. Bouquets last for days in a vase of water. It blooms heaviest during June and July, but has a good showing of flowers all summer long. It is not necessary to pick the flowers to keep them in bloom.

Siberian Lavatera is a long lived perennial. It makes a good border or back ground plant, and is splendid as a summer hedge. The plants offered will bloom this summer if properly cared for.

Prices: Per Plant, 25c; 3 for 50c; 12 for \$1.75; 25 for \$3.00.

PHLOX

A hardy and very desirable perennial for the garden and lawn. Gives a vivid, wanted, alluring touch of color to the home grounds that is so much in demand by all lovers of flower beauty. No flower garden is really complete without phlox and every lawn should have some. Choice Assorted Phlox, 6 for \$1.00; 12 for \$1.75. By Colors: Red, Pink, White, Purple, Lavender. Each, 25c; 3 for 60c; 12 for \$2.00.

IRIS

In Iris, one is able to get rare choice of many hues, which bloom forth in all their beauty just at a time when the garden or lawn would be without much color if it were not for the glorious Iris. They are very hardy and do well on even the poorest soil. Our choice selection from the best varieties will give you many happy hours. 12 Best Assorted Large Iris, \$1.25.

IRIS PUMILA—One of the prettiest and hardiest of all the Iris. Grows readily anywhere. Prices: Each 10c; 3 for 25c; 12 for 75c; 25 for \$1.25.

GLADIOLUS

The Glory of the Garden. A flower supreme. Desirable and easy to grow everywhere. A wide range of many attractive colors. We have hundreds of varieties, many of which we sell by name. Special List with prices gladly sent free.

However, a good assortment of Gladioli is always the most desirable. Our assortments are made up from a wide range of selections from our many choice varieties and are all extra fine kinds with only the best large size blooming bulbs selected. 12 Special Gladiolus Bulb Assortment, \$1.00; 100 Best of All Glad Bulb Assortment, \$3.50.

PEONY

The superb flower of the garden, which with its gorgeous array of color, gives an effect of a fairyland. It is hardy in the coldest places and will bloom for years with little care or attention. Peonies are a priceless pleasure that all should have.

Prices For Strong 3 to 5 Eye Divisions. By Colors: Pink, Red, or White, 50c each; 6 for \$2.50; 12 for \$4.50. 3 Assorted Peonies, \$1.25; 6 Assorted Peonies, \$2.00; 12 Assorted, \$3.50.

DAHLIAS

Dahlias are very easy to grow, require but little care and are very productive of beautiful flowers over a long season. They are always a popular favorite everywhere. Our assortments contain many fine colors in a great variety. 12 Selected Tubers, \$1.00; 25 for \$1.75. HOLLYHOCKS—Prices: Each 20c; 3 for 50c; 12 for \$1.75.

LARKSPUR—Prices for Choice Assorted Roots: Each 25c; 3, 50c; 12, \$1.75.

BLEEDING HEART—Prices: Each 50c; 3 for \$1.25; 6 for \$2.00.

BABY'S BREATH—Prices: Each 35c; 3 for 75c; 12 for \$2.00.

SHASTA DAISY—Prices: Each 20c; 3 for 50c; 12 for \$1.75.

GAILLARDIA (Blanket Flower)—Prices: Each 15c; 3 for 40c; 12, \$1.50.

YUCCA—A beautiful perennial native of western South Dakota. Does best on poor gumbo soil in dry places. Fine for rock-gardens. Prices: Each 35c; 3 for \$1.00; 6 for \$1.75.

ANOKA—The Wonder Apple

One of Prof. N. E. Hansen's Greatest Introductions
BEARS AT TWO YEARS
HARDY — PRODUCTIVE — GOOD

Perhaps no other apple in recent times has created so much sensation or has received as much praise as this wonder apple—Anoka! It is very good to eat, hardy everywhere, and a big producer, but the big thing and best part of all is that it usually bears the second year after planting. Almost as soon as do plums. Anoka is a marvel—a masterpiece of the famous fruit breeder, Prof. N. E. Hansen, and the wonder of all hardy apples. Be sure to include some in your order for fruit trees.

The size, color, and flavor of Anoka make it a popular favorite everywhere. The fruit is good sized, red striped, and comes on early in the season. It is good eating, cooks up well and keeps better than most summer apples.

EXTRA SPECIAL OFFER

Large 3 yr. Anoka Trees, Ready to Bear This Year; \$1.50 Each; 3 Trees \$4.00; 6 Trees \$7.00.

DOLGO CRAB—Another of Prof. N. E. Hansen's famous fruit introductions. Absolutely hardy everywhere, and growing more popular every year. Fruit good size, brilliant red and very juicy, for eating, for jelly or cider. Tree is free from blight and very vigorous. Commences bearing big crops when very young.

RED FLESH CRAB—Prof. N. E. Hansen's newest crab introduction that has both red skin and flesh, giving a delightful coloring to sauce and preserves. Fruit is of good size and very good eating. Flowers red.

Prices for Dolgo, Dolgo, and Red Flesh—Large Size, each, 75c; 3 Trees, \$2.00; 12 Trees, \$6.50. Small Size, each, 50c; 3 Trees, \$1.25; 12 Trees, \$4.00.

WEALTHY APPLE—A long time favorite with all good fruit men. A good eating and cooking apple, early full and winter apple. Has a bright red skin and an extra fine sweet flesh.

DUCHESS APPLE—The standard summer cooking apple for the northwest. Bears heavily and resists. Hardy everywhere and very disease resistant.

Prices for Wealthy, Duchess, Whitney, and Yellow Transparent
Large —1 to 6 Feet ————— Each 50c; 3 for \$1.50; 12 for \$5.00; 25 for \$9.50
Medium—3 to 5 Feet ————— Each 40c; 3 for 1.10; 12 for 4.00; 25 for 7.50
Small —2 to 4 Feet ————— Each 30c; 3 for .85; 12 for 3.00; 25 for 5.00

OKA CHERRY

The Best of Them All!

The best and sweetest of all of Prof. N. E. Hansen's cherry hybrid fruit introductions. This new cherry has developed a wonderful demand and become extremely popular almost over night. Its wonderful superb sweetness and beautiful intense dark, wine-red flesh make a combination that can't be beat. The fruit is large size and often comes in clusters of two and three.

The size and shape of the tree is one outstanding feature of Oka Cherry in that it grows in a dwarf, bushy form which makes it easy to harvest the fruit. Thus it puts its strength into fruit production and not into surplus tree growth. Especially handy for the small back-yard garden as it will not take up much room.

Oka Cherry bears the year after planting and annually thereafter. It is hardy thruout the northwest prairies. Oka Cherry has a wonderful possibility as a commercial cherry for once anyone has tried it they will demand more. Large Trees: Each, 75c; 3, \$2.00; 6, \$3.50; 12, \$6.00. Small Trees: Each, 50c; 6, \$2.50. SPECIAL! Selected Extra Large Specimen Trees of Oka, ready to bear this year: Each \$1.25; 3, \$3.50.

Small Fruits and Berries

Hansen Improved Siberian Black Currant

The best currant for the Northwest. Hardy everywhere. Very vigorous. Fruits of enormous size, black-red inside and out, and of a particular sweet mellow desirable taste. Excellent for cooking or eating and makes the most wonderfully colored dark rich red jam, jelly or sauce of superb flavor and beauty. Prices for Large, Strong Stocky Plants: Each, 25c; 5 for \$1.00; 10 for \$1.75; 25 for \$2.50.

Perfection Red Currant

One of the best and most productive red currants. Vigorous, good size, and a heavy cropper. Each 35c; 10 for \$2.50; 25 for \$4.00.

Carrie Gooseberry

The best and most popular gooseberry for the northwest. Large size, hardy everywhere, productive and almost thornless. Each 25c; 10 for \$2.00; 25 for \$3.50.

RASPBERRIES

SUNBEAM RED RASPBERRY—The hardiest of all red raspberries and the most famous of Prof. N. E. Hansen's raspberry introductions. Has choice fruits of large size and flaming red color—a good berry for home or market. Due to its bearing over such a long period of time each season it is called everbearing by some.

MOHTA RED RASPBERRY—Productive and vigorous, hardy far north into Canada. Very free and resistant to Mosaic, the most dreaded disease of raspberries. Fruits are firm and quite good size and they keep well.

Prices on Sunbeam and Ohta Raspberry: 10 Plants, 75c; 25 Plants, \$1.25; 100 Plants, \$3.50.

LATHAM RED RASPBERRY—Tremendously popular everywhere. Very large, bright red berries of fine quality. Considered the best raspberry for marketing as it retains its shape and firmness splendidly under market conditions and bears freely thruout the season. Prices: 10 Plants, \$1.50; 25 Plants, \$2.00; 100 Plants, \$5.00.

Latham Raspberry

Waneta Plum

THE GIANT OF HARDY PLUMS

Up to two inches in diameter. Highly flavored. Richly colored red skin. Considered by many the best and most popular of the Hansen Hybrid Plums and the champion plum of the northwest.

Opata Cherry Plum

Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. The flesh is a light green color with purplish red skin. Very productive. Hardy thruout the northwest prairies.

Sapa Cherry Plum

Early, large, productive, and hardy. Its intense black purplish flesh is extra fine eating and wonderful for preserves and jam. Bears the year after planting. A sure annual producer and a favorite everywhere.

Hanska Plum

The superb plum of apricot flavor and fragrance. Very hardy and productive. Many claim Hanska makes the best jam of any of the Hansen Plums. It has a highly colored firm flesh.

NEW REDUCED PRICES ON OPATA, SAPA, WANETA AND HANSKA—
Large Size, 4 to 6 Ft. ————— Each, 65c; 3 for \$1.75; 12 for \$6.50; 25 for \$11.50
Medium Size, 3 to 5 Ft. ————— Each, 50c; 3 for \$1.35; 12 for \$5.00; 25 for \$9.50
Small Size, 2 to 4 Ft. ————— Each, 35c; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50
We list other varieties of Hansen Apples, Crabs and Plums and if you wish any, send for full description and prices.

BARGAIN ASSORTMENT PLUMS AND APPLES

Many people when ordering from us request a good assortment as experimentation has proved that mixed plum and mixed apple orchards unquestionably bear best, due to the cross pollination. So we have made up some good assortments of fruit trees which, because of quantity production, supply and demand, we are able to offer at the greatly reduced prices as shown. Be assured of good hardy varieties and of choice selection of stock.

6 Small Assorted Plums & Apples, \$2.00; 12, \$3.50; 6 Plums Only \$2.25; 6 Apples Only \$2.15.

6 Medium Assorted Plums & Apples, \$3; 12, \$4.00; 6 Plums Only \$3.50; 6 Apples Only \$3.25.

6 Large Assorted Plums & Apples, \$4.00; 12, \$7.50; 6 Plums Only \$4.75; 6 Apples Only \$4.50.

POLLENIZER PLUMS

TO INSURE GOOD CROPS OF FRUIT

To assure a good yield of fruit, you should plant in your orchard a few of these Hansen Select Pollenizer Plums which give a surplus abundance of good virile pollen to make a good setting of fruit on your plum trees. These are very hardy and have fruit of good size and flavor.

2 to 4 Feet—Each 15c; 6, \$.75; 12, \$1.35.
3 to 5 Feet—Each 25c; 6, \$1.00; 12, \$1.75.
4 to 6 Feet—Each 35c; 6, \$1.75; 12, \$2.50.

HANSEN HARDY PEARS

These pears were introduced from Siberia by Prof. N. E. Hansen and improved by him. They are perfectly hardy anywhere in the northwest, free from disease and resistant to fire-blight, the dreaded disease of the standard varieties. Fruit is of good size and sweet to eat, cooks up well and preserves nicely. Trees grow rapidly and are very sturdy. Pear production is just started in the northwest and it is an honor to be among the first to start their culture in your community. As our stock of these is limited each year it is well to order early and avoid disappointment.

2 to 6 Ft., Each, 75c; 3, \$2.00; 12, \$6.50.
3 to 5 Ft., Each, 50c; 3, \$1.25; 12, \$4.50.

Rhubarb

The most welcome sure producer of the garden. A vigorous grower with rich red stems of fine quality. Large Roots: 3 for 40c; 10 for \$1.25.

Asparagus

The earliest and best green of the garden. Contains those proper vitamins one needs to remain in good health. Fine, large succulent stalks can be cut from early spring till late fall if the bed is properly mulched and cared for. Heavy, Large, 2-Year Roots, 25 for \$1.00; 100 roots, \$2.50; 250 roots, \$3.50; 1,000 roots, \$12.50.

Hardy Grapes For Everyone

The culture of grapes is a rapidly growing enterprise in the northwest, not only for the home garden but for market as well. This widespread growing approval of grapes is well merited and a continuous further extension is very desirable. Their care and culture is easy and when hardy varieties like the Hansen Grapes or Beta are selected, the results are assured.

BETA GRAPE—The best known and hardiest of the popular grapes. Producing amazingly large crops of fine large fruit which are good eating and make excellent preserves, splendid jelly and tasty grape juice. Prices: 20c Each; 5 Vines, 85c; 10 Vines, \$1.50; 25 Vines, \$3.00; 100 Vines, \$10.00.
THE NEW HANSEN GRAPES—Originated and introduced but a few years ago by Prof. N. E. Hansen, the plant wizard of South Dakota State College. They are all hardy generally thruout the northwest. All are fine eating fresh or as the many delicacies to be made from them. But the quality is of first importance as many are of as choice flavor as Concord though their size is as yet somewhat smaller. Due to the great demand we have not yet caught up on production but offer them only in assortments of the best selection of our choice. Large, 3 and 4 year old, well rooted plants, with long vines: \$1.25 Each; 3 for \$3.50; 6 for \$7.50; 12 for \$12.50.

STRAWBERRIES

PROGRESSIVE EVERBEARING—The very best all around of the everbearing varieties. A good producer of fine large berries of excellent quality from early spring till late fall. Prices: 25 Plants, \$1.00; 100 Plants, \$3.50; 500 Plants, \$10.00; 1,000 Plants, \$15.00.

SENATOR DUNLAP—The favorite and largest and best of the June bearing strawberries. Very hardy and gives a wonderful yield of large juicy berries. Price: 25 Plants, 75c; 100 Plants, \$2.00; 500 Plants, \$7.50; 1,000 Plants, \$10.00.

MASONDON EVERBEARING—The Biggest and Best of the recently introduced strawberries. A tremendous bearer and very sweet. A splendid berry for market because of its enormous size and good keeping qualities. Prices: 25 Plants, \$1.50; 50 Plants, \$2.50; 100 Plants, \$4.

Waneta Plum

Siberian Flowering Almond
A beautiful Dwarf Shrub

Ideal low hedge as its dwarf, bushy growth can be severely pruned which tends to make it produce an even finer foliage and more and better flowers after trimming.

Prices for Strong Transplanted Bushy Plants for Group and Specimen Planting
Small Size: ————— Each, 35c; 10 for \$3.00; 25 for \$6.50; 100 for \$25.00
Medium Size: ————— Each, 50c; 10 for \$4.00; 25 for \$8.50; 100 for \$32.50
Large Size: ————— Each, 75c; 10 for \$6.50; 25 for \$13.50; 100 for \$50.00

HEDGING STOCK OF SIBERIAN ALMOND—Siberian Flowering Almond is of special merit as a low hedge since it is of dwarf habit and requires little care to keep it in a compact attractive condition. And its price makes it the cheapest low hedge you can buy. Hedging Stock: 10 Plants \$1.25; 25 Plants, \$2.50; 100 Plants, \$8.50.

Cistena Purple Leaf Shrub

For Beauty of Color. Shrubs with different colored foliage are very desirable. Cistena is in great demand for its rich dark maroon purple foliage and bark and gives a splendid touch of color in any landscape planting. Prices: 3-5 Ft. Shrubs \$1.25 Each; 3 for \$3.50; 6 for \$6.00; 2-4 Ft. Shrubs, 75c Each; 3 for \$2.00; 6 for \$3.50.

Prof. N. E. Hansen and Two Young Chinese Elm

N. E. HANSEN AND HIS GREAT WORK

No other man has given so much to the advancement of agriculture and horticulture in the northwest as has Dr. N. E. Hansen of the South Dakota State College at Brookings. His great work has been a benefit to millions and many have directly profited in a large way on his many varied plant and seed introductions.

His plant introductions have been sent all over the world. And his seed introductions are well known, especially in the alfalfa line, where ever good hardy alfalfas are in demand. The further widespread use of these already introduced valuable seeds and plants is becoming greater everyday. Yet in a measure their introduction has just begun. For Dr. Hansen has still thousands of untold value, plant and seed inventions still in the process of making.

It is truly a great work, and one which will directly or indirectly benefit everyone of us. Yet big things of this nature can not be done alone. Every aid should be given Prof. N. E. Hansen in his experimental and plant origination work, with the proper equipment, plenty of land, and proper appropriations to further the work. The results in improved plants will more than pay back the help. For, though great things have already been accomplished, still greater ones are in the process of completion, which if not properly aided now, will be lost forever.

TERMS

Cash with order. No packing charges. Remittance may be made the most convenient way. All shipments F.O.B. here and are sent forward the cheapest and quickest way unless otherwise directed.

Hardy Plants for the Northwest

Brookings, South Dakota

Ornamentals

SIBERIAN FLOWERING ALMOND

SOMETHING NEW AND DIFFERENT

A wonderful, Flowering Dwarf Almond which was introduced from the colder parts of Siberia by Prof. N. E. Hansen and is perfectly hardy everywhere. It will bloom for days, way ahead of any Spiraea or any other shrub.

Has profuse masses of lovely pink and white flowers in early spring which completely cover the shrub and form a lovely bouquet of many fine flowers.

Besides the lovely flowers, the shrub has a fine green foliage which turns to a pretty red and gold in the fall. The shrub is of dwarf habit rarely growing over three feet tall, thus making it a fine shrub for border work or mixed shrub plantings and an ideal low hedge as its dwarf, bushy growth can be severely pruned which tends to make it produce an even finer foliage and more and better flowers after trimming.

Prices for Strong Transplanted Bushy Plants for Group and Specimen Planting
Small Size: ————— Each, 35c; 10 for \$3.00; 25 for \$6.50; 100 for \$25.00
Medium Size: ————— Each, 50c; 10 for \$4.00; 25 for \$8.50; 100 for \$32.50
Large Size: ————— Each, 75c; 10 for \$6.50; 25 for \$13.50; 100 for \$50.00

HEDGING STOCK OF SIBERIAN ALMOND—Siberian Flowering Almond is of special merit as a low hedge since it is of dwarf habit and requires little care to keep it in a compact attractive condition. And its price makes it the cheapest low hedge you can buy. Hedging Stock: 10 Plants \$1.25; 25 Plants, \$2.50; 100 Plants, \$8.50.

Cistena Purple Leaf Shrub

For Beauty of Color. Shrubs with different colored foliage are very desirable. Cistena is in great demand for its rich dark maroon purple foliage and bark and gives a splendid touch of color in any landscape planting. Prices: 3-5 Ft. Shrubs \$1.25 Each; 3 for \$3.50; 6 for \$6.00; 2-4 Ft. Shrubs, 75c Each; 3 for \$2.00; 6 for \$3.50.

Spiraea Van Houtte

The most popular of the spring blooming shrubs. A wonderful wealth of fine white flowers in early spring which are ideal in shrub planting, and make a beautiful flowering hedge. Hardy everywhere and at present the most widely planted ornamental shrub.

SPIREA ANTHONY WATERER—A dwarf Red Flowering, summer blooming Spiraea, very fine for border work and low hedges. Blooms almost continuously from Mid-June till frost, with flowers in bouquet clusters and somewhat fragrant. Prices for Heavy Spiraea V. H. and A. W.: Large, Each 75c; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50. Medium, Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00. Small, Each 35c; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00. Hedging Stock: \$1.75 Per 10; \$3.00 Per 25; \$11.50 Per 100.

Siberian Flowering Crab

Siberian Flowering Crab

Introduced from the colder parts of Siberia it is perfectly hardy everywhere. In early spring it is covered with loads of pink and white fragrant blooms which are followed by an abundance of small, bright cherry-red fruits which are fair eating and make excellent jelly. Later the leaves turn to a rich gold and red color in fall. It does well on the poorest soil, growing for years with scarce any care or attention. It is a long lived tree and is drought and disease resistant.

Prices for Strong, Healthy, Well Branched, and Rooted Trees:
Size Each Per 5 Per 10 Per 25
2 to 4 Feet ————— 25c \$1.00 \$1.75 \$3.50
3 to 5 Feet ————— 35c 1.50 2.50 5.00
4 to 6 Feet ————— 50c 2.00 3.50 7.00
5 to 7 Feet ————— 75c 3.00 5.00 10.00

SPECIAL! We Have A Few Extra Large Selected Specimen Trees, 8-10 Ft. at \$1.00 Each.
HOPA RED FLOWERING CRAB—Prof. N. E. Hansen's red flowered, and red fruited, hardy flowering crab. Especially fine as a specimen ornamental. Price 3-5 Ft. Trees \$1.25 Each.

Lawn Trees and Hedges

CHINESE ELM—The Fastest Growing Permanent Tree Known

IN BIG DEMAND EVERYWHERE. This remarkable elm for street and lawn is fast becoming the leading elm thruout America. It grows faster, is more drought resistant, longer lived, grows larger, and is harder than any other shade tree grown. It is much finer than the ordinary Elm. The foliage is finer and feathery, a brighter green, and very dense, and the branches make almost right angles with the trunk instead of being in spray-form like the common Elm.
3-4 Ft. Trees ————— 50c Each; Per 5, \$2.00; Per 10, \$3.50; Per 25, \$7.50; Per 100, \$27.50
4-6 Ft. Trees ————— 75c Each; Per 5, \$3.50; Per 10, \$6.50; Per 25, \$13.50; Per 100, \$40.00
5-7 Ft. Trees \$1.25 Each; Per 10, \$8.50. 6-8 Ft. Trees \$1.75 Each; 5, \$7.50; 10, \$12.50.

Niobe Weeping Willow

Niobe Weeping Willow

The superb, graceful beauty of the Niobe Weeping Willow is near to the utmost in distinctive specimen ornamental planting. Its beauty is a continual joy. In winter and summer its graceful branches sway in the slightest breeze and wave their beauty to all. Prof. N. E. Hansen introduced Niobe Weeping Willow from the colder parts of Europe and so it is perfectly hardy far north in Canada. Prices: 3-5 Ft. Trees 50c Each, 4-6 Ft. Trees 75c Each, 5-7 Ft. Trees \$1.00 Each. Three for The Price Of Two.

Red Silver Crab

A Carl A. Hansen Introduction

It is a rich maroon red from top to bottom, in bark, in branch, and in leaf. The somewhat cut-leaf foliage has in addition a silvery touch underneath, making a remarkable combination thruout the season. Stock very limited. Price: While They Last, \$3.50 Each.

SNOWBALL—A most showy shrub which is covered in early spring with clusters of large flowers resembling balls of snow.

MOCK ORANGE—A delightfully fragrant flowering shrub, which blooms after the lilac and Spiraea V. H. Tall growing.

HYDRANGEA P. G.—Has enormous white panicles of flower clusters which blossom in late June and July.

LILAC—Common or Persian—The favorite old standby for its large and very fragrant blossoms. Common Lilac grows taller and more bushy, though the Persian Lilac does not sucker.

ELDER—Golden Elder or Cut Leaf Elder—Do especially well in the shade. The Golden Elder has beautiful golden foliage all summer, and the Cut Leaf has fern-like foliage.

JAPANESE BARBERRY—A dwarf shrub, with pretty foliage, which has small yellow blossoms, followed by red berries. Fine in border work and low hedge.

PRICES FOR ABOVE LISTED SHRUBS: Small Size: Each 40c; Three, \$1.00; Twelve, \$3.50. Large Size: Each 60c; 3, \$1.75; 12, \$6.00; Hedging Stock: \$2.50 Per 10; \$4 per 25; \$14 per 100.

HARDY OUTDOOR FERNS

The best for low shady places and to fill in the blank spaces in shrub planting. We have a number of varieties, all hardy and northern grown. Prices: Each, 50c; Three for \$1.00; Six for \$1.75; 12 for \$3.00.

ENGELMANN IVY

* The hardest of the climbing vines. Clings by means of sudopads to a sheer wall without the aid of lattice work. Each 50c; Three for \$1.25.

HARDY ROSES

To many there is no flower in the garden lovelier than a rose, yet, contrary to the opinion of many, they are easy to grow and their culture can be successful if the proper simple care and attention is given them. We sell only the hardiest sorts. All double kinds. Prices—By Color—Red, Pink, White, or Yellow: Each 50c; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

Special Assortment—1 Each Of 3 Colors—Our Selection \$1.00.
CLIMBING ROSES—Red, Pink, White, or Yellow Climbing Roses, not completely hardy, and must be taken down in the winter. Each 75c; 3 for \$2.00.

HANSEN SIBERIAN ROSE—The plant is covered with beautiful blooms all summer long. The hardy rose for prairie homes. Each 25c; 6 for \$1.00.

TETONKAHA ROSE—Introduced by Prof. N. E. Hansen. A very choice flower and free bloomer. Flowers three inches in diameter, upwards to twenty-five or more petals, a deep rich pink. Hardy far north. Prices: Each, \$1.00; 3 for \$2.00; 6 for \$3.00.

HEDGE ROSES

THE MOST BEAUTIFUL OF ALL HEDGES

For something new and distinctive in hedges, try the hardy Siberian bush rose. They make a fine dense hedge, are absolutely hardy and are a rare treat in a flowering hedge. Blooming abundantly all during June, and more or less all summer long. Plant in hedge formation 8 to 12 inches apart. Prices for Large, Strong, Healthy Plants: 18 to 24 in. ————— Each, 15c; 10, \$1.25; 25, \$2.50; 50, \$4.00; 100, \$7.50
2 to 3 Ft. ————— Each, 25c; 10, \$1.75; 25, \$3.50; 50, \$6.50; 100, \$12.50

A Trimmed Hedge to Surround the Lawn

Caragana—Siberian Pea Tree

By far the hardiest and best windbreak and hedge plant for the most exposed prairies, and one which will endure severe drought. Has fine feathery, beautiful green foliage, which grows very dense from the ground up. It has an abundance of bright-yellow blooms early in spring. According to how trimmed it forms a splendid dense hedge from a low height to a tall windbreak snow fence.

Size Per 10 Per 25 Per 100
9 to 15 Inches ————— \$.85 \$1.25 \$3.50
1 to 2 Feet ————— .75 1.75 5.00
2 to 3 Feet ————— 1.00 2.25 7.50

Siberian Bush Honeysuckle

A fine tall hedge plant which is of added value because of its pretty pink and white flowers in early spring followed by masses of bright red and orange fruit that are of great attraction to the birds. A fine specimen plant for both lawn and group planting.

Size Per 10 Per 25 Per 100
9 to 15 Inches ————— \$.50 \$1.00 \$3.00
1 to 2 Feet ————— .75 1.50 5.00
2 to 3 Feet ————— 1.25 2.50 8.50

Prof. N. E. Hansen and A May Day Tree

MAY DAY

The Beautiful Flowering Lawn Tree

For superb flowering beauty on the lawn or boulevard none excels May Day. Its long clusters of large fine wonderfully fragrant pure white flowers early in spring create a massive bouquet of loveliness that is alluringly wonderful and altogether lovely. It is the first tree to show green in spring and is practically in full leaf long before many of the common trees begin to leaf.

The mass like clusters of flowers are truly a beautiful sight and are well adapted to cutting for the house or early spring lawn festivals.

May Day may be trimmed up for a street or lawn shade tree or left in bush form as shown. It grows rapidly, and is perfectly hardy far north into Canada as it came from the colder parts of Siberia.

Prices on May Day Trees

12-18 Inch ————— \$.35 Each; 5 Trees for \$1.50
12-36 Inch ————— .50 Each; 5 Trees for 2.00
3-5 Feet ————— 1.25 Each; 5 Trees for 5.50
4-6 Feet ————— 1.75 Each; 5 Trees for 7.50

Specimens Which Have Already Bloomed:
6-8 Feet ————— \$3.50 Each

Hardy Field Seeds for the Northwest

COSSACK ALFALFA—The Greatest of Them All

Prof. N. E. Hansen's Wonder Plant

This variety of alfalfa is well known to all. It is perhaps the greatest of forage plants, and every farm should have a pasture and hayland of it. There are a number of alfalfas grown, but Cossack is the marvel of them all in hardness and forage production.

It is absolutely hardy on the most exposed prairie, and does well and produces an abundance of forage and seed in the driest years. It will outyield other varieties of alfalfa and is harder than any of them. Prof. N. E. Hansen, the plant wizard, introduced this alfalfa from Siberia, in an eight inch rainfall country which often gets 60 degrees below zero in the winter with little or no snow.

He has added millions of dollars of value to the farms of the northwest by this one kind of alfalfa—Cossack. Extensive planting of this king of the alfalfas will pay you big dividends in return. As there is a ready market for the seed at a good price and the surplus hay you have can easily be sold at top prices.

Plant 3 to 12 pounds to the acre for a solid field of alfalfa or less per acre according to the percentage you want in a mixed pasture.

Top Grade Seed—1 lb. 75c; 10 lbs. \$5.00; 25 lbs. \$11.25; 100 lbs. \$40.00

GRIMM ALFALFA

A very popular and good general purpose alfalfa. Hardy and an abundant producer of fine large crops of succulent stems and foliage. A great hay and pasture alfalfa and a heavy seed producer. As a money maker per acre, with hay or seed Grimm is a real big paying investment.

Top Grade Seed—10 lbs. \$4.50; 25 lbs. \$10.00; 100 lbs. \$35.00

DAK. NO. 12 ALFALFA

A good hay crop alfalfa. Generally hardy thruout the northwest. Very popular for use in seeding mixed pastures and hay lands.

Top Grade Seed—10 lbs. \$3.50; 25 lbs. \$7.50; 100 lbs. \$27.50

SECOND GRADE ALFALFA SEED

Though free from noxious weeds and of high germination, some minor defect keeps us from putting it in with our best grade seed.

PRICES for Cossack, Grimm, and Dak. 12: \$5.00 per 100 lbs. LESS Than Top Grade Seed.

BARGAIN ALL ALFALFA MIXTURE—That Is A Real Alfalfa Buy!

A Genuine Value At A Real Low Price

This is a mixture of about even proportions of Cossack, Grimm, and Dakofa 12 Alfalfa. It gives the combined merits of all of them, and is a wonderful combination to use in a hay meadow or mixed pasture.

It is made up from our small odds and ends of seeds which are not large enough to be offered separately or which for some minor defect can't be sold as top or select grade seed. The seed is of choice quality and alright in every way for general seeding purposes. It is free from noxious weeds, though it may have considerable discolored seed in it, but it will give you good results. It really gives you more seed value per dollar than any other seed and is a money saving, money making investment for seeding in your hay land or pasture.

Prices: 10 lbs. \$2.50; 25 lbs. \$6.00; 50 lbs. \$11.00; 100 lbs. \$20.00.

Dr. N. E. Hansen and a Single Cossack Alfalfa Plant

Dr. N. E. Hansen and Another Single Plant of the Alfalfa He Introduced from Siberia

SEED CORN

Picked Early—Properly Dried
Shelled and Graded—High Germination

HANSEN YELLOW DENT— This is a variety of corn of our own, on which we have worked and improved for years. It is somewhat similar to Minnesota 13, or Early Murdock, but will outyield either of them, and is earlier to mature. The ears are large and high off the ground. Kernels are large, deep and well dentured.

Prices: 1 lb. 25c; 10 lbs. \$1.25; 25 lbs. \$2.50; 1 bu. \$5.00; 5 bu. \$20.00

MINNESOTA NO. 13— A good early yellow dent corn. Kernels are dark yellow, of medium dent, and the cob is red. It is almost a sure crop. It is high in protein and a mighty good feed corn.

Prices: ½ bu. \$2.50; 1 bu. \$4.00; 10 bu. \$35.00

75-DAY YELLOW DENT— Another of our own improved corns. Cross of an early yellow dent corn and an early yellow flint. The result after much selection and trial is a real yellow dent corn that will mature along with the flint corns. It is well dentured, and of good yellow color. Ears well off the ground. Especially good for the northern and western part of this state. Most of our supply of seed this year was raised in Marshall County in the northeastern part of the State.

Prices: 1 lb. 35c; 10 lbs. \$1.50; 25 lbs. \$2.50; 1 bu. \$5.00; 5 bu. \$20.00

HANSEN PROSO—The Grain of the Age!

The Best Catch Crop For The Northwest

Hansen Proso was introduced along with many other varieties of Proso from Siberia by Prof. N. E. Hansen. It was then selected for white seed, large kernels, and the greatest productiveness.

It is extremely valuable as a catch crop even for the north, as it will mature in 60 days and may be sown after other crops are planted even after they show signs of failure. Though it does best when sown in June, it may be sown in July and still mature a good crop of grain. It often yields 300 to 500 fold of good clean grain, weighing 60 to 64 pounds per bushel.

The seed is round and several times the size of ordinary millet. It grows in a sprangly head, resembling oats. The color of the inner kernel of grain is white. Hansen Proso is suitable for feeding whole or ground. It is very valuable as a fattening grain for hogs as well as a good general feed for cattle, horses, and chickens. Chickens prefer it to corn or wheat.

Many farmers claim that Hansen Proso will put on a quicker and solidier fat than will corn. The U. S. Dept. of Agriculture in their Proso Bulletin give many valuable statistics in this regard.

We do not advise using it excluding all corn. But we do say that if you will sow about two-thirds the corn that you usually do and sow that extra acreage to Hansen Proso that the increased value of feed will make you a good increase in profit. And right now with the scarcity of seed, there is a demand worth considering in seed grain.

When hulled and ground Proso may be used as a breakfast cereal, similar to wheat or rice, or as a flour in breads and other pastry. Sow 15 to 25 pounds to the acre.

A Harvested Crop of Hansen Proso That Went Over 40 Bu. Per Acre

GARDEN—FLOWER—LAWN SEEDS

We carry all the main varieties of which the descriptions are so well known that they are not necessary. Fresh Seed. Large Packets. Send us your order for what you want and it will be filled from our best supply.

All Vegetable Seeds..... 5c Per Pkt.; 10 Pkts. 35c, Prepaid.

All Flower Seeds..... 10c Per Pkt.; 10 Pkts. 75c, Prepaid.

SPECIAL!

10 Pkts. of Vegetable & 10 Pkts. Flower Seeds, \$1.00, Prepaid

LAWN SEED— A good mixed lawn seed is the best for the establishment of a good permanent lawn. Our seed is an especially prepared mixture of choice kinds of grass to insure a good quick-showing—yet lasting lawn. 25 lbs. will properly cover the average lot, and should be sown early in spring, on a well pulverized soil, using most of the seed and saving some to sow on later in the summer and fall in the spots where it did not catch at first. Be sure to sow on a still day, preferably just before a rain.

Prices:

1 lb. 45c; 5 lbs. \$2.15; 10 lbs. \$4.20; 25 lbs. \$10.00; 100 lbs. \$37.50

One Bundle Of Proso Grown in Western S. Dak.

Prices: 1 lb. 25c; 10 lbs. \$1.00; 25 lbs. \$1.75; 100 lbs. \$5.00; 250 lbs. \$10.00; 1,000 lbs. \$35.00.

HANSEN SIBERIAN SWEET CLOVER

Often Called Arctic Sweet Clover in Canada

This remarkable Sweet Clover was introduced from the dry Semipalatinsk region of Siberia by Prof. N. E. Hansen. It is very tall growing clover and will make an astounding growth in one year, often reaching a height of 6 to 8 feet in one season. Has very succulent stems and may be cut two or three times during the season without danger of harming its growth the next season if the last cutting is not done too late.

Altho a more rank grower than our common sweet clover it has a somewhat finer stem and leaf and really makes better hay. It is much harder than the common sweet clover and will withstand our coldest winters and driest summers, as it comes from one of the driest and coldest parts of Siberia.

Get a good start now in this as there is a growing demand for the seed at a good profit.

1 lb. 50c; 5 lbs. \$2.00; 10 lbs. \$3.50; 25 lbs. \$5.00; 100 lbs. \$17.50
